

KRISH ENGINEERING

Company Profile

About Us

KRISH ENGINEERING, founded in 2012 by a team of pioneering and futurist professionals, is a customer oriented company, working round the clock to offer complete satisfaction to our esteemed clients.

Our Mission

Our ultimate aim is to serve you- our customer- with outstanding air conditioners, complete HVAC services, and after sales services. We are one of the few reputed service teams in the industry offering air conditioners of world-class brand like Daikin home appliances. With our exceptional customer support system, high performing products, and HVAC services, we have carved out a distinguished niche in the market within a short span of time.

Our Services

We are well equipped with top-notch facilities to offer excellent repair and maintenance services. Currently, we undertake Supply and Installation of HVAC equipments and are also well-known for supply and installation of leading Market brands HVAC equipment works, MEP works, VRVs and VRF, air conditioning contracts, as well as after-sale services for all types of air conditioners.

We offer customers reliable consultation, contracting, implementation, equipment supply, control and automation services at a very reasonable and affordable price. We've recruited a team of dynamic individuals who are well-qualified and skilled to carry out mechanical, electrical and electronical troubleshooting using the latest technology.

KRISH ENGINEERING

Who We Are

We have a strong and experienced team of technicians and engineers, who possess expertise in the field of HVAC and allied products design, supply, installation and commissioning. **We are dealers of DAIKIN, the most advanced air conditioning systems with innovative VRT technology.** Our team work offers unmatched combinations of air conditioning equipments with energy efficiency and best installation practices.

Marketing Team:

Our highly competent team, strongly driven by enthusiasm and passion for the field, comprise sales, marketing and construction engineers who are constantly in touch with changing market needs and trends. We offer air conditioners and other allied products, which are suitable to customer's individual needs. Our team works under the expert guidance of a specialist in the field with over 21 years of experience in the field of HVAC.

Service Team:

We offer customers with unparalleled repair and maintenance services at market leading prices. Our team of skilled and trained service and maintenance engineers possesses more than 15 years of experience in these fields; these specialists undertake repair and service works tailored to customer-needs.

Up-To-Date

We take industry trends and changes very seriously. Our service team undergoes technical-promotion training classes by our suppliers on a regular basis, to keep pace with changing technologies of air conditioning, ventilation, VRV & VRF Systems from the world-over- to ensure we only offer you the best!
